

# Superior insulation qualities with Blockout Shutters

Whether you require roller shutters for doors, windows or a roof, Blockout Roller Shutter insulation qualities are superior to any other product on the Australian market.

Our shutters will cut down summer heat intake by up to 90%, blockout light by 99% and reduce outside noise levels by up to 10 decibels. Blockout Shutters can also protect your property from fires, hailstones and storms.

In addition, Blockout Shutters has the strongest shutter available - Maxiblock®. It combines a 40mm double walled extruded profile, the exclusive Maxiblock® tracking design and a bottom bar security system for extra strength.

Insulation, protection and security for your home - all from Blockout Shutters.

Call us today on 02 9725 3477 to arrange a free quote or visit [www.blockout.com.au](http://www.blockout.com.au) for further information on our versatile product range.
